INFORMATION IN YOUR POCKET

If you visit the emergency room or a doctor who is not on your regular care team, it's important to share that you are getting an immunotherapy.

THE WALLET CARD

3 TIPS TO MAKE SURE YOU GET THE APPROPRIATE CARE

- Once you've started treatment: Cut out this card, fill it out, and carry it with you at all times.
- Even after you stop treatment: Keep this card with you for at least 3 months, because side effects can still come up during that time.
- 3 Take a picture: If you have a phone with a camera, take a picture of this card just in case you leave it at home.

If you need to replace a card, or want to access other resources, you can download them online at LighthouseProgram.com.
